

The Climber's Ascent Log

*100 routes — grade, conditions, partners, and
the send*

Daystone Press

How to use this journal

Climbing is a sport of marginal gains. Each attempt, each beta change, each rest — all of it accumulates.

This journal records every route you touch. Grade, send/project, beta refinements, the partner who held your rope.

Years from now you'll flip back and remember the day the rain came in halfway up the wall.
