

The Bird Watcher's Field Journal

*100 entries to record sightings, habits, and
seasons*

Daystone Press

How to use this journal

Birding is patience rewarded. This journal turns each sighting into something more — a record you can return to, build upon, and share.

Note the species, the time of day, the weather. Sketch a quick silhouette. Over the seasons, you'll build a personal field guide unique to your patch.

Some of the best discoveries come from re-reading old entries and noticing a pattern you missed in the moment.
